IEEE PRECEDE 2027

Paper Submission Guide

Ninth IEEE International Conference on Predictive Control of Electrical Drives and Power Electronics
Beijing, China · 3–6 June 2027

> **SUBMISSION WINDOW**
>
> **30 September – ~~30 November 2026~~ 15 December 2026 (extended)**
>
> Deadlines are Anywhere on Earth (AoE, UTC−12). EDAS shows them in the time zone of your browser; use the *show in other time zones* link next to a date to see your local equivalent.

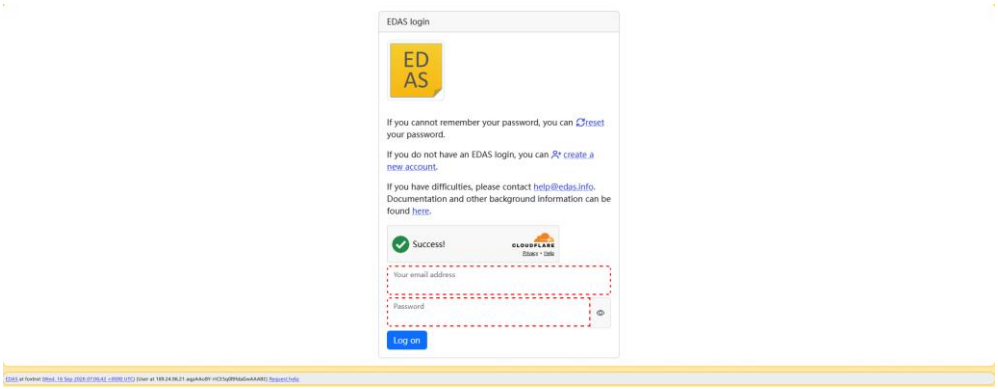

This guide walks through the submission steps in EDAS. The digest requirements, templates, tracks and information for accepted papers are on the Digest Submission page.

1. Before you start

Have your digest ready as a single PDF: single column, no more than five pages including references, and without author names or affiliations, as the review is double-anonymous.

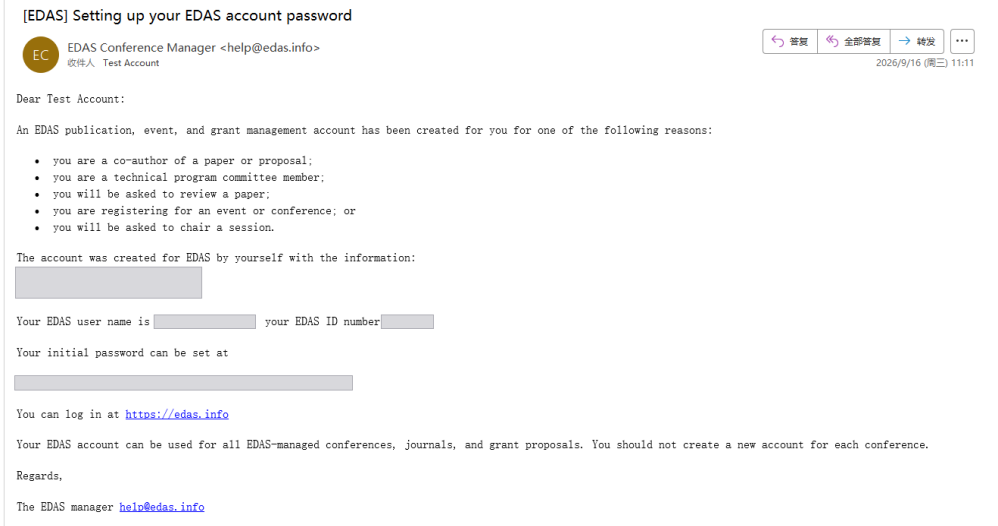

2. Your EDAS account

Submission is handled through EDAS. One EDAS account works for every conference that uses the system, so if you already have one, use it rather than creating another.

The EDAS login page. Use "reset" if you are not sure whether you already have an account.

New accounts receive a message with a link for setting the initial password. You may also receive a short message with the subject "EDAS email reachability test"; it needs no action and confirms only that your address works.

[EDAS] Setting up your EDAS account password

Dear Test Account:

An EDAS publication, event, and grant management account has been created for you for one of the following reasons:

- you are a co-author of a paper or proposal;
- you are a technical program committee member;
- you will be asked to review a paper;
- you are registering for an event or conference; or
- you will be asked to chair a session.

The account was created for EDAS by yourself with the information:

Your EDAS user name is [redacted] your EDAS ID number [redacted]

Your initial password can be set at

[redacted]

You can log in at https://edas.info

Your EDAS account can be used for all EDAS-managed conferences, journals, and grant proposals. You should not create a new account for each conference.

Regards,

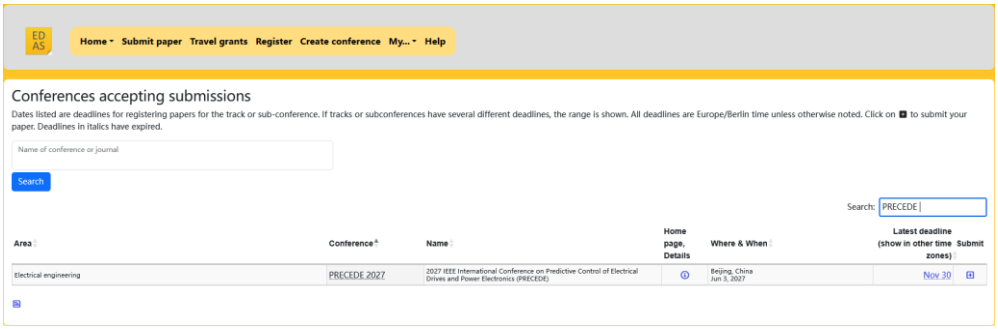

The EDAS manager help@edas.info

The account message carries your EDAS user name and ID number.

- Add help@edas.info to your address book, so that later notifications do not go to your spam folder.

3. Open PRECEDE 2027 in EDAS

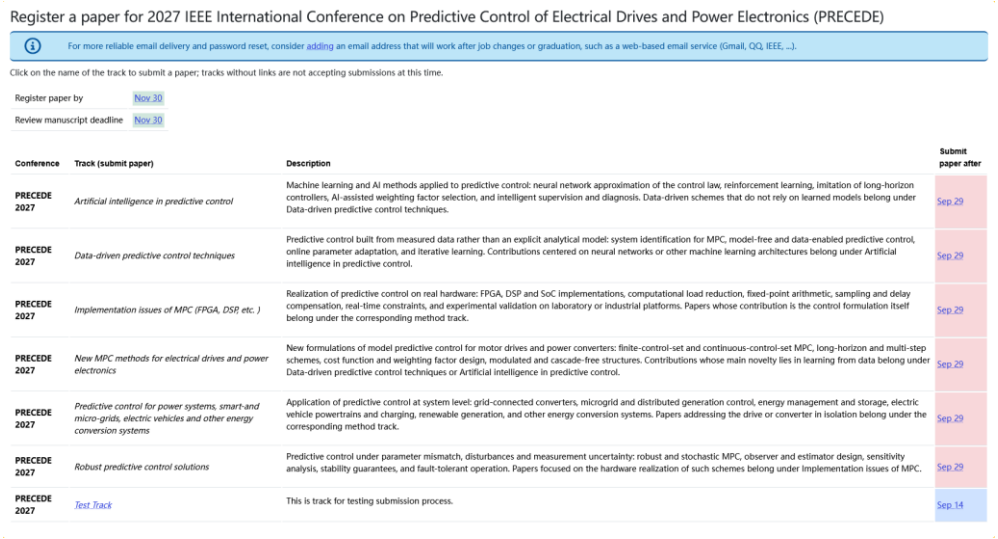

The direct link to the conference is https://edas.info/N35756. You can also reach it from the EDAS menu: choose **Submit paper** and type PRECEDE in the search box on the right.

Searching the list of conferences accepting submissions.

4. Choose a track

PRECEDE 2027 has six technical tracks. Read the descriptions before choosing: the closing sentence of each one says where a borderline paper belongs. The track determines which reviewers see your paper, so an accurate choice works in your favour.

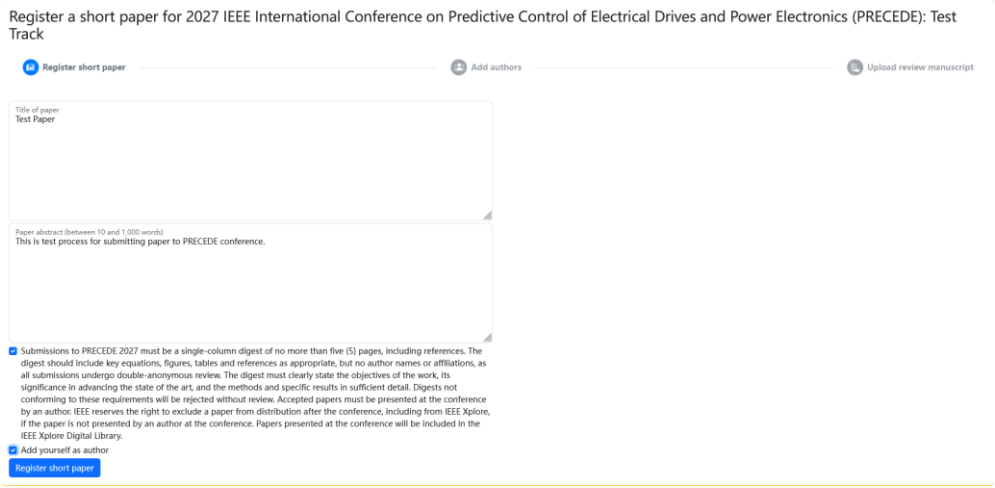

The six tracks with their descriptions, and the two deadlines above them. Click a track name to begin.

- A track listed without a link is not open for submissions at that moment.
- The Test Track visible in the screenshot is used by the secretariat to verify the submission process. It will be removed before submissions open and is not available for papers.

5. Register your paper

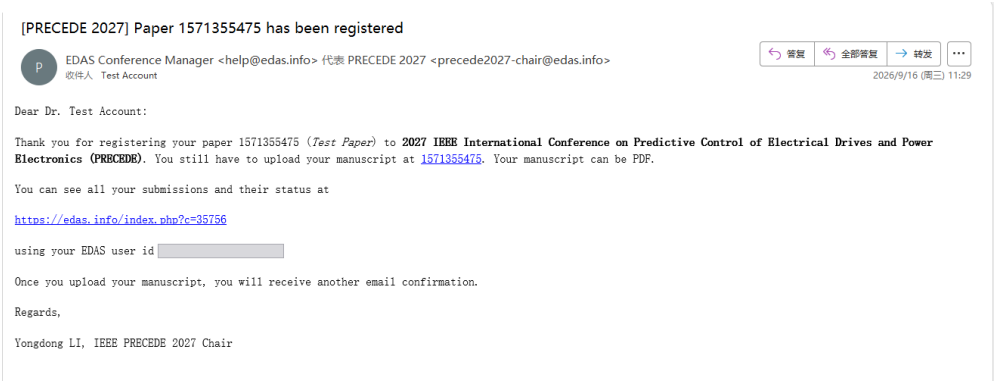

Registration records the title, the abstract and the authors. It does not submit the manuscript itself — that is the next step. Registering early is a good idea: you can change every detail, and replace the file, up to the deadline.

The registration form. The abstract is between 10 and 1,000 words, and the submission policy has to be accepted before the paper can be registered.

- Add all co-authors while registering. The author list in EDAS, not the one in the PDF, is what the conference works from.

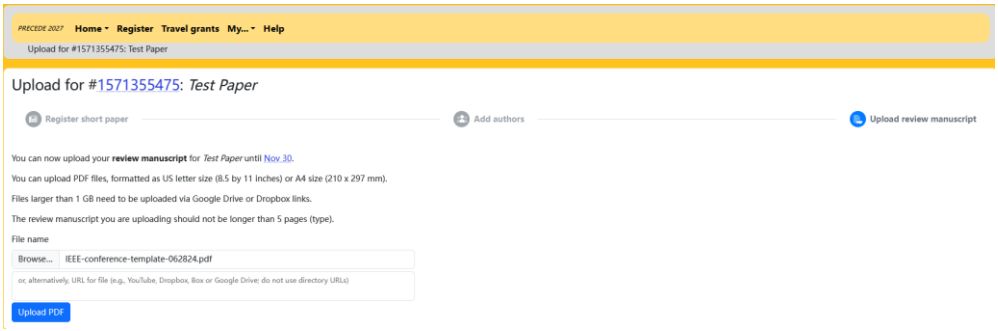

A confirmation message follows, with the paper number you will use in any correspondence with the secretariat.

Registration confirmation, with the paper number. The manuscript still has to be uploaded.

6. Upload the manuscript

Follow the paper number in the confirmation message, or open the paper from your EDAS home page, and upload the PDF.

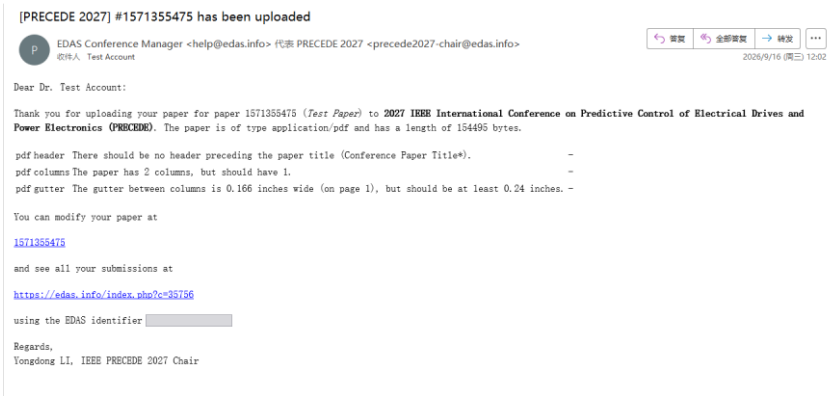

The upload page repeats the deadline, the accepted page sizes and the five-page limit.

You may upload a new file as often as you like until the deadline; each upload replaces the previous one.

7. Read the format report

EDAS inspects every PDF and reports what it finds. Read this report — a file can upload successfully and still fail the conference requirements.

[PRECEDE 2027] #1571355475 has been uploaded

收件人 Test Account

2026/9/16 (周三) 12:02

Dear Dr. Test Account:

Thank you for uploading your paper for paper 1571355475 (*Test Paper*) to **2027 IEEE International Conference on Predictive Control of Electrical Drives and Power Electronics (PRECEDE)**. The paper is of type application/pdf and has a length of 154495 bytes.

pdf header There should be no header preceding the paper title (Conference Paper Title*).
pdf columns The paper has 2 columns, but should have 1.
pdf gutter The gutter between columns is 0.166 inches wide (on page 1), but should be at least 0.24 inches.

You can modify your paper at

1571355475

and see all your submissions at

https://edas.info/index.php?c=35756

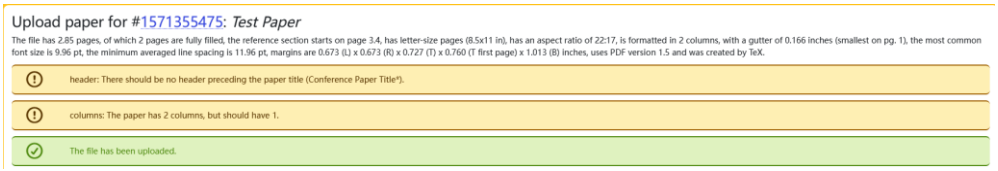

using the EDAS identifier

Regards,
Yongdong LI, IEEE PRECEDE 2027 Chair

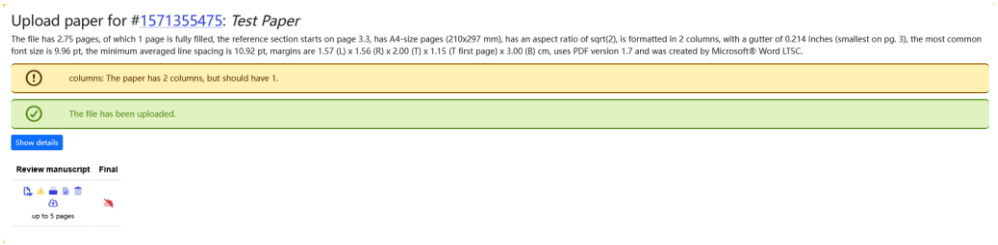

The confirmation e-mail repeats any problems found in the file.

What the report looks like in practice

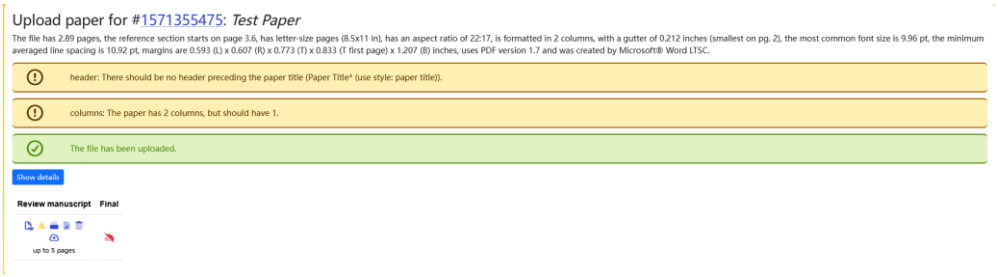

The three examples below are the unmodified IEEE conference templates, submitted without any change. Each one is flagged, because the templates are two-column and PRECEDE 2027 requires a single column.

IEEE LaTeX template, US letter — flagged for a header above the title and for two columns.

IEEE Word template, A4 — flagged for two columns.

IEEE Word template, US letter — flagged for a header above the title and for two columns.

> **BEFORE THE DEADLINE**
>
> The green line “The file has been uploaded” means the file was accepted by the system. It does not mean the paper meets the conference requirements.
>
> Clear every warning and upload the corrected file before 15 December 2026. Digests that do not conform are rejected without review.

8. Where to get help

- Technical problems with EDAS itself: help@edas.info
- Questions about your submission: precede2027@tsinghua.edu.cn or precede2027@ncepu.edu.cn. Please quote your EDAS paper number.
